

## **TEXAS FUTURE ENERGY DEMAND IS IN GOOD HANDS**

### **LONE STAR DEMAND RESPONSE, LLC AND VIRIDITY ENERGY SOLUTIONS, INC. SHAKE HANDS FOR RENEWING THEIR PARTNERSHIP FOR THE NEXT 5 YEARS**

**Lewisville, Texas (August 5, 2020)** – Lone Star Demand Response and Viridity Energy Solutions, Inc. have signed a new 5 years business to business agreement to continue the delivery of first-class demand response (DR) curtailment management services throughout times of high electricity demand. This will bring Lone Star Demand Response, LLC into a position to carry on with protecting the various generation and transmission systems from overloading during peak-times and to fine-tune the demand to match the available supply.

**Lone Star Demand Response, LLC** is known in the Energy Production, Manufacturing, Processing, and Data Center industries for providing mission-critical, authorized DR curtailments in collaboration with the Electricity Reliability Council of Texas (ERCOT). “We are enthusiastic to continue our extraordinary work and success with Viridity Energy” said Keith M. Vauquelin, Chief Executive Officer of Lone Star Demand Response. “Teaming up with Viridity Energy to provide DR service delivery excellence for our electricity users has always been an exciting development for our company”.

**Viridity Energy Solutions, Inc.** provides Demand Response & Energy Management (DR&EM) services to end customers, business partners, and utilities throughout the United States. Paul Reed, Director of Demand Response & Energy Management for Viridity, stated “The partnership with Lone Star has been a premier example of complimentary partnerships. Leveraging our combined experiences has enabled top notch customer service, strong performance, and high-growth. We look forward to the continued success of our approach.”

### **About Lone Star Demand Response, LLC**

Founded in 2017, Lone Star Demand Response is known for its dedication to flawless, business-critical success, demand response curtailment service delivery in any circumstances. The company's mission is to do unquestionable and recognizable superior-quality work for all Texas-based ERCOT DR customers. Lone Star Demand Response currently serves a substantial portfolio of over 175 MW of commercial and industrial electricity end-users and examines DR participation potential with a huge respect for, and commitment to, customer human safety and infrastructure investment.

Lone Star Demand Response is based in Texas and understands and supports the unique business and cultural environment of Texas. The company is dedicated to the proposition of ensuring world-class service delivery to ERCOT electricity customers.
